

Ultra Electronics Australia is seeking **talented and motivated people!**

Ultra Electronics Australia Pty Ltd specialises in producing leading integrated system solutions to emerging and dynamic requirements in the defence, aerospace and security markets. Based in Adelaide, South Australia, we provide solutions for maritime, airborne and land platforms working with the world's most cutting-edge technologies to provide innovative solutions. We are seeking talented individuals for the following positions:

- **Project Managers**
- **Systems Engineers**
- **Software Engineers**
- **Integration & Test Engineer**
- **Systems Support Engineers**
- **Commercial Officers**
- **Finance Officers**

Applicants should have experience of working within the defence market, ideally with a background in underwater acoustics, and should be able to demonstrate their ability to handle a challenging role and be prepared to display their level of commitment to our organisation. In return Ultra Electronics can offer successful candidates an exciting career path, which will suit ambitious and driven individuals.

Successful applicants will benefit from:

- Exciting work on prestigious national and international contracts.
- The possibility of up to 12 month secondment periods in the UK.
- Competitive pay and benefit packages.

To apply please email your resume and a covering letter explaining why you believe Ultra Electronics is the right company for you to recruitment@ultra-electronics.com.au specifying which positions you are interested in. Your details will be held in the strictest confidence.

Ultra Electronics is an equal opportunity employer.
